

NAME

teckit_compile – manual page for command line error at --version

SYNOPSIS

teckit_compile [-u] [-x] [-z] *mapping_description* [-o *compiled_table*]

OPTIONS

Required argument:

source mapping description (.map) file

Optional arguments:

-ofile output compiled table (.tec) file ("–" for stdout)

-u read source text as UTF8 even if no BOM found

-x generate XML representation rather than compiled table

-z generate uncompressed table format

Further Information

For further information see the document TEckit_Tools.pdf. A description of the mapping description language used by the compiler, with examples, is found in TEckit_Language.pdf. On a Debian system, these can be found in /usr/share/doc/teckit.
